# About Tranz Logistics

Tranz Logistics works on a partnership agreement with our clients. We have secured a number of high level logistics contracts with Road and Rail Tunnelling clients in Australia. We can implement state of the art equipment with all safety spec installed and viewed live. All our Tunnel spec trucks have fire suppression, lane changing assist, motion sensors, E stops and other safety devices installed to prevent all incidents and accidents.

Tranz Logistics are tunnel, rail, road, mining, oil & gas and infrastructure specialists. We design and implement innovative supply chain solutions, including customised fit-for-purpose equipment for the construction & supply chain industry.

Our customised supply chain solutions are based on a strong customer focus ensuring we fully understand and fulfil all of your logistics requirements. Combined with safety management systems that can be integrated into your solution, we can meet the most stringent safety standards.

We are committed to developing customised logistics solutions that leverage our expertise, people and equipment to provide safe, efficient and innovative operational solutions.

Our reputation within the Tunnelling, Infrastructure, Construction and Mining Resources sector has been built on strong, long-term partnerships with our valued customers. We are committed to ensuring our operations demonstrate high performance, quality, safety and value to ensure our customers' ongoing success.

As industry leaders in safety, we work with experienced engineers to develop innovative solutions to offset safety risks and are proactive in our adoption of new technology like in-vehicle monitoring systems (IVMS), GPS tracking and fatigue management systems.

Our expertise allows us to respond effectively to fluctuations in domestic and international markets and provide our customers with innovative, scalable solutions

## Tranz Logistics Services

### Tranz Renewables

Tranz Logistics is now able to provide an innovative and diverse service offering to companies investing in the construction and maintenance of hybrid renewable technologies.

### Tranz Warehousing

Warehousing is a key component of any supply chain, so getting it right when providing a logistics solution is paramount. At Tranz we offer strategically located facilities in major gateways across the globe, with a range of warehousing options to suit your core services.

### Tranz Moves

At Tranz Moves our core service supply is to the Heavy commercial vehicle market and the mining industry. Our service area is local, Metro, Regional, Interstate and worldwide shipping.

Our mission is to be the innovative leader in delivering safe and efficient world class logistics solutions.
